OUR FACTORY

The collage consists of eight photographs arranged in a 2x4 grid, illustrating the glass bottle manufacturing process:

- Top Left:** A conveyor belt system with numerous glass bottles in various stages of completion, some with red caps, moving through a factory setting.
- Top Middle-Left:** A large industrial facility with a high ceiling, showing rows of glass bottles on conveyor belts and storage racks.
- Top Middle-Right:** A close-up of a glass bottle being formed or shaped by a mechanical arm or mold.
- Top Right:** A close-up of a glass bottle being formed or shaped by a mechanical arm or mold, showing the molten glass and the forming process.
- Bottom Left:** Two workers in a factory setting, one is using a tool to shape or inspect a large quantity of red glass bottles on a conveyor belt.
- Bottom Middle-Left:** A large industrial facility with a high ceiling, showing rows of glass bottles on conveyor belts and storage racks.
- Bottom Middle-Right:** A large industrial facility with a high ceiling, showing rows of glass bottles on conveyor belts and storage racks.
- Bottom Right:** An exterior view of a large, multi-story industrial building with a yellow facade and a blue sky in the background.
