The characteristics of machine-pressed glass candle holders

Normally Open Machine Machine-Pressed Craft is applied to make the candlesticks that meet the following characteristics:

Upper diameter lower than the bottom

- . Mass production with high MOQ
- . Relief pattern on the outer wall
- . Max-Min thickness: 1.5 ~ 10mm
- . Lower thickness: 4 ~ 30mm
- . Low cost model cost on the external wall.

Application method

1. Using it under the guidance of the adult
2. Wash it with clean or boiling water before use
3. Do not touch the edge of the glass cup, try to take the bottom or the handle of it

Precautions

1. Beer, red wine, white wine, drink or hot water may not be too full
2. To avoid hurting your children's hands, please put them in the place where they cannot reach
3. Avoid falls, collisions and strong impact
4. Not available for the microwave oven
5. To prevent it from breaking, do not place it directly on the fire
